The corporate governance of VT Holdings Co., Ltd. (the “Company”) is described below.

I. Basic Views on Corporate Governance, Capital Structure, Corporate Attributes and Other Basic Information

1. Basic Views

Based on the recognition that continuously building and maintaining an organizational structure that is able to swiftly respond to changes in the business environment is one of the key business issues for the Company group (the “Group”), the Company has adopted a holding company system delegating authority and placing the responsibility for managerial execution with each Group company so that each company may manage its business with speed and autonomy in pursuit of maximum business results. As a holding company, we also supervise each company’s business planning from the perspective of the Group’s overall optimization and determine the efficient allocation of management resources such as capital and human resources through continued monitoring and evaluation of the state of business execution.

The Company transitioned to a company with an Audit and Supervisory Committee pursuant to the resolution at the 42nd Ordinary General Meeting of Shareholders held on June 27, 2024, aiming to further strengthen the supervisory function of the Board of Directors by means of granting the Audit and Supervisory Committee the right to state its opinions at a General Meeting of Shareholders concerning the election and remuneration of Directors (excluding Directors who are Audit and Supervisory Committee Members), while the Audit and Supervisory Committee members, who are responsible for auditing and supervising the business execution of Directors, exercise their voting rights at meetings of the Board of Directors.

Moreover, the Company provides various committees with management oversight functions in addition to the Board of Directors and the Audit and Supervisory Committee as a means of internal control for the Group, clarifying their roles in management decision-making, business execution, and management supervision to promote greater transparency and fairness in management as well as thorough compliance.

In addition, the Company has established the Basic Policy on Corporate Governance below with respect to our adherence with the principles of the Corporate Governance Code.

(Basic Policy on Corporate Governance)

The Company views corporate governance as the basis of company activities in ensuring transparency, soundness, swiftness, and efficiency in corporate management and business execution for all stakeholders. By ensuring appropriateness in business through initiatives to develop the internal control system, which is the basis of corporate governance, we endeavor to ensure that corporate governance functions effectively, achieve sustainable growth as a Group, and improve medium- to long-term value.

1. We shall endeavor to secure shareholder rights and equality.

In order to ensure shareholder rights and equality, we shall create the requisite environment to allow all shareholders, including minority shareholders, to appropriately exercise their voting rights, as well as properly and fairly disclose information at the appropriate time.

2. We shall endeavor to achieve appropriate collaboration with other stakeholders in addition to shareholders.
We aim to improve our Group corporate value in society by taking into consideration the interests of various stakeholders in addition to our shareholders, and building a favorable collaborative relationship with them.
3. We shall endeavor to appropriately disclose information and ensure transparency.
Not only do we disclose information as mandated by laws and regulations, but we also extensively disclose information that is important to stakeholders accurately, swiftly, and in a way that is easily accessible.
4. We shall endeavor to properly execute the duties of the Board of Directors.
The Board of Directors is responsible for the Group's sustainable growth and corporate value improvement through effective corporate governance, and to fulfill these responsibilities, they shall provide supervisory functions over general execution of business, and strive to make better decisions in achieving fair management.
5. We shall endeavor to achieve active and constructive dialogue with shareholders.
In addition to the general meeting of shareholders, we provide opportunities for dialogue with shareholders through financial briefing meetings and investor briefing meetings, along with actively providing investor relations (IR) information as material for dialogue in order to deepen shareholder understanding of Group business and achieve active and constructive dialogue between the Company and shareholders.

[Reasons for Noncompliance with the Principles of the Corporate Governance Code]

[Supplementary Principle 4.2.1 Roles and Responsibilities of the Board (2)]

The President & CEO has been entrusted by the Board of Directors to determine the amount of individual remuneration for each Director (excluding Directors who are Audit and Supervisory Committee Members) within the scope of remuneration approved at the general meeting of shareholders in accordance with Principle 3.1 iii). The President & CEO takes into comprehensive consideration each Director's position, an evaluation of the execution of his/her duties, the Company's performance and state of management over the past fiscal year, as well as the Company's medium- to -long-term performance and economic conditions, among others, and makes this determination based on a report by the Nomination and Remuneration Committee. The Nomination and Remuneration Committee will also proceed with discussions on a remuneration system that follows objective and transparent procedures and consider matters such as the ratio of remuneration linked to medium- to long-term business performance as well as the ratio of cash-based to stock-based remuneration.

[Disclosure Based on the Principles of the Corporate Governance Code] Updated

[Principle 1.4 Cross-Shareholdings]

(Policy on Cross-Shareholdings and Reducing Cross-Shareholdings)

The Company permits shares to be held as cross-shareholdings only if, upon examining the economic rationale for the holding, the Company deems it to be appropriate from the overall perspective of maintaining and strengthening a business relationship and strategic alliance with the counterparty, as well as the growth potential and financial security of said counterparty.

Given the considerations noted above, the Board of Directors regularly reviews whether or not to continue holding such shares by taking into account earnings targets based on the cost of capital (the cost of equity and weighted average cost of capital (WACC)), actual returns, and trading conditions.

The Board of Directors found the returns of some individual holdings to fall below the WACC at its meeting in January 2024. However, it has determined that there are shares for which it is appropriate to continue the holding as well as it is appropriate to reduce the holding considering the degree to which said shares contribute to the Group's business earnings. The Company will promote the shares for which reduction is deemed to be appropriate through sufficient dialogues with the counterparty.

■ Criteria for the Exercise of Voting Rights Pertaining to Cross-Shareholdings

In exercising voting rights from shares of listed companies held, the Company considers the proposals and makes a comprehensive judgement as to whether they will contribute to improving the medium- to long-term value of the Company and contribute to common shareholder interest of the investee, and exercises its voting rights as appropriate.

[Principle 1.7 Related Party Transactions]

When the Company engages in transactions with related parties such as Directors or major shareholders, the Company will implement procedures that comply with laws and regulations with respect to matters that formally constitute the appearance of a conflict of interest. In addition, in order to ensure that such transactions do not compromise the interests of the Company or the common interests of its shareholders, the Company requires deliberation and approval by the Board of Directors and other such procedures prescribed in the relevant regulations prior to executing such transactions.

The Board of Directors also periodically surveys all Directors to confirm the existence of any related party transactions, and has established a system for managing related party transactions.

[Supplementary Principle 2.4.1 Ensuring Diversity, Including Active Participation of Women]

The Group is of the belief that by recognizing and accepting differences in character and values, and by having an accurate grasp on societal changes and needs, it will be able to create new products and services. As such, the Group shall actively recruit outstanding talent regardless of gender, nationality, or other attribute.

Women in particular held approximately 5.4% of management positions as of March 2024, though we are aiming to increase this ratio to 10%. Meanwhile, we are not aware of any particular disparities in promotion to management positions based on nationality or time of hire, and as such have not currently set or disclosed targets for the promotion of foreign nationals and mid-career hires to management positions.

In addition, we have established the Human Resource Training Policy and the Internal Environment Development Policy as a means of ensuring diversity in our core human resources. Based on these policies, we have implemented a system to subsidize the cost of acquiring qualifications and a remote work system in an effort to create an environment in which employees can flourish. For more information, please see our website (URL: <https://sdgs.vt-holdings.co.jp/eng/social/>).

[Principle 2.6 Role of Corporate Pension Funds as Asset Owners]

The Company has introduced a defined contribution pension plan, and no conflicts of interest arise between the beneficiaries of the corporate pension funds and the Company. Therefore, in lieu of appointing, assigning, and training personnel to fulfill the functions expected of the pension fund as an asset owner, the Company provides employees with explanations regarding the selection of investment products and asset management under the defined contribution pension plan upon hire. The Company also provides regular educational opportunities to deepen employee understanding of the plan.

The Company clearly stipulates the authority of the Board of Directors and senior management in the Regulations of the Board of Directors, internal regulations, and the Regulations on Administrative Authority. The matters that require a resolution of the Board of Directors include the matters specified by laws and regulations and important matters related to business execution, personnel affairs, and shares and corporate bonds.

[Principle 4.9 Independence Standards and Qualification for Independent Directors]

The Company has adopted the independence criteria established by the Tokyo Stock Exchange and selects candidates for Independent Outside Director following deliberation by the Board of Directors based on said criteria.

[Supplementary Principle 4.11.1 Preconditions for the Board Effectiveness]

The Company's Board of Directors shall be comprised of twelve (12) Directors (excluding Directors who are Audit and Supervisory Committee Members) or less, and the number of Directors who are Audit and Supervisory Committee Members shall be six (6) or less as stipulated in the Articles of Incorporation. The basic view of the Company is that the Board of Directors should be of an appropriate size to engage in effective discussions and be comprised of diverse personnel with a balance between the knowledge, experience, and abilities necessary to oversee the promotion of the Company's business strategy. The Company has prepared a skill matrix summarizing said knowledge, experience, and abilities, which is disclosed in the notice of the general meetings of shareholders and on the Company's website (URL: <https://www.vt-holdings.co.jp/about/officers.html>).

[Supplementary Principle 4.11.2 Preconditions for Board Effectiveness]

The Company has established internal regulations stipulating that Directors, excluding Outside Directors, must obtain approval from the Board of Directors to concurrently serve as an officer of another listed company. The Company has also established a system to oversee the status of concurrent positions held by all Directors. Said details are disclosed in the Business Report issued during the annual Ordinary General Meeting of Shareholders.

[Supplementary Principle 4.11.3 Preconditions for the Board Effectiveness]

1. Evaluation policy and processes

The Company has continuously conducted self-analysis and evaluations of the effectiveness of the Board of Directors since 2017 in order to improve its function and increase corporate value.

In order to ensure objectivity in our self-evaluation and analysis, we once again prepared a questionnaire in the fiscal year 2024 with the cooperation and advice of an external organization independent of the Company comprised of 52 questions, some of which were changed from the previous year. We adopted an anonymous format in which respondents return their answers to the external organization directly to ensure anonymity. In addition, an external organization conducted interviews with all Directors and all Audit and Supervisory Committee Members.

2. Summary of evaluation results and future efforts

Analysis of the responses found the evaluations to be generally positive, and we therefore regard the effectiveness of the Company's Board of Directors to have been secured.

The Board of Directors has voluntarily established Nomination and Remuneration Committee to address issues to be improved identified at the previous effectiveness evaluation, such as succession planning for the CEO and other top executives of the Board of Directors, the officer nomination process, and designing remuneration programs for the executive members of the Board of Directors. Thus, we believe that efforts have been made for measures and improvement in areas such as active participation by the Nomination and Remuneration Committee in formulation and operation of the succession plan for the CEO and the use of the skills matrix as reference in relation to the nomination of officers.

Meanwhile, the following issues were identified through this year's questionnaire. Efforts will be made to implement related improvements.

- Determine policies for the entire Group's business portfolio and periodically review such policies
- Verify investment into human capital and intellectual property and oversee the appropriate implementation of such investment
- Ensure the provision of better information to facilitate a good quality discussion

The issues identified through this year's questionnaire include those that can be improved in the short term and those that require sufficient consideration. Accordingly, the Company's Board of Directors will address these issues by responding to and considering them based on the results of this evaluation and will continue to make efforts to improve the function of the Board of Directors.

<Group Management Views and Policies>

Based on the recognition that continuously building and maintaining an organizational structure that is able to swiftly respond to changes in the business environment is one of the key business issues for the Group, the Company delegates authority and places the responsibility for managerial execution with each Group company so that each company may manage its business with speed and autonomy in pursuit of maximum business results. As a holding company, we also supervise each company's business planning from the perspective of the Group's overall optimization and determine the efficient allocation of management resources such as capital and human resources through continued monitoring and evaluation of the state of business execution.

<Significance of Having Listed Subsidiaries>

The Company is the parent company of listed subsidiaries, Trust Co., Ltd. (TSE Standard Market; Securities Code: 3347) and AMG Holdings Co., Ltd. (TSE Standard Market, NSE Main Market; Securities Code: 8891). Trust Co., Ltd. is involved in the used car export business, contributing to the Group by expanding its sales area and increasing value added to its products. The company's clients are largely overseas customers, and we believe that being listed helps garner trust from these overseas clients in particular.

AMG Holdings Co., Ltd. is involved in the housing-related business, contributing to the Group by not only diversifying its fields of business but also helping develop our automotive businesses by building dealerships through its subsidiaries. We believe that the company's listing facilitates its access to information on real estate projects and also enables its subsidiaries to engage in transactions that require creditworthiness.

In addition to the above, we also believe that keeping both companies as listed subsidiaries is important from the perspective of attracting capable human resources, improving management expertise, and developing a comprehensive administrative management system.

<Measures to Ensure the Effectiveness of Listed Subsidiaries' Governance Systems>

As of the date of submission, AMG Holdings Co., Ltd. has appointed two (2) Independent Outside Directors out of its three (3) Directors who are Audit and Supervisory Committee Members, while Trust Co., Ltd. has appointed two (2) Independent Outside Directors out of its seven (7) Directors and two (2) Independent Outside Audit & Supervisory Board Members out of its three (3) Audit & Supervisory Board Members. The Company believes that both companies have secured systems to protect the rights of general shareholders and make independent decisions.

In addition to the above, the Company has established and administers the Regulations for the Management of VT Holdings Affiliates in order for the Company and Group companies to conduct business in an appropriate and smooth manner, and for each Group company to exercise its autonomy while collaborating with the Company to grow as a group. We have exempted our listed subsidiaries from the application of the provisions requiring parent company approval with respect to matters such as resolutions of the Board of Directors, and believe that we have ensured greater independence and autonomy for these subsidiaries than our non-listed subsidiaries.

Reason for Adoption of the Current Corporate Governance System

The Audit and Supervisory Committee has not appointed any employee to assist with the duties of the Audit and Supervisory Committee as information is collected through Directors who are Full-time Audit and Supervisory Committee Members or through collaboration with the Internal Audit and Supervisory Office, which is an internal audit department, and Accounting Auditor. If the Audit and Supervisory Committee requests that an employee be appointed to assist with the duties thereof, the Company shall assign the necessary personnel to do so.

Collaboration Among the Audit and Supervisory Committee, Accounting Auditor, and Internal Audit Department

The Company holds quarterly three-way audit meetings conducted by its Audit and Supervisory Committee, Accounting Auditor, and Internal Audit and Supervisory Office, during which Audit and Supervisory Committee receives reports from the Accounting Auditor and Internal Audit and Supervisory Office on their plans, details on the implementation thereof, and said results. The Audit and Supervisory Committee, meanwhile, provides both other parties with explanations on its audit policies and audit plans and provides and exchanges information as appropriate. In this way, the Company strives to ensure mutual collaboration in its internal audits, Audit and Supervisory Committee audits, and accounting audits.

Full-time Audit and Supervisory Committee Members strive to conduct audits more effectively and efficiently by exchanging information with the Accounting Auditor as necessary and appropriate and by cooperating with the Accounting Auditor to conduct audits in its presence and on the internal control system.

The Internal Audit and Supervisory Office, which reports directly to the President & CEO, formulates its internal audit policy, internal audit implementation plans, and the details of its internal audits each fiscal year based on discussions with Audit and Supervisory Committee Members and shares information on and its recognition of priority issues. It then reports to and exchanges opinions with the Audit and Supervisory Committee on the implementation status and results of its internal audits. In doing so, the Internal Audit and Supervisory Office works together to enhance the effectiveness and efficiency of the Company's audit function. In addition, Audit and Supervisory Committee Members selected by the Audit and Supervisory Committee accompany internal audit activities to more accurately grasp the current state of the business, Audit and Supervisory Committee Members also interview the persons in charge on site, inspect documents, and perform on-the-spot surveys to conduct audits more effectively.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance Structure)

1. Business Execution Function (Board of Directors)

The Board of Directors is comprised of fourteen (14) Directors (of whom six (6) are Independent Outside Directors) chaired by the President & CEO. The Board ensures diversity in its composition by appointing individuals with the skills and attributes necessary to oversee our Group companies engaged in an array of businesses. In addition, the Company ensures that at least one-third of its Directors are Independent Outside Directors to strengthen the supervisory function of the Board of Directors and maintain fairness and transparency, and sets the term of office for Directors to one (1) year in order to clearly define their management responsibilities.

The composition of the Board of Directors is outlined on our website (URL: <https://www.vt-holdings.co.jp/about/officers.html>).

Furthermore, based on Article 427, paragraph 1 of the Companies Act, the Company has entered into an agreement with each Outside Director to limit his/her liability for damages under Article 423, paragraph 1 of that Act. The maximum amount of liability for damages based on the agreement will be the greater of 1 million yen or the minimum limited liability provided for by laws and regulations.
